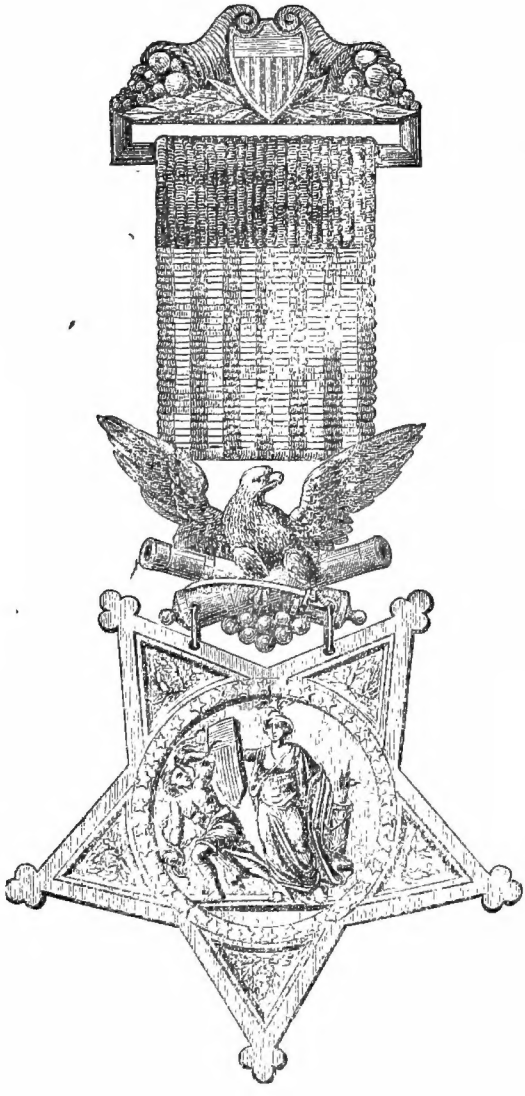
FAC SIMILE OF THE MEDAL OF HONOR.

(FULL SIZE.)



ON THE REVERSE ARE ENGRAVED THE FOLLOWING WORDS:

The Congress to .....

(Giving name, rank, &c., of the person to whom the medal is awarded.)

EXPLANATIONS.

Errors or omissions, if any, as to names, dates, &c., will be immediately reported to the Adjutant General by the officers concerned.

Where an organization is out of service, the roster is given as it stood at the date of muster out.

When, at any time, one organization is transferred to or consolidated with another, the roster of its officers is given as it stood at that time.

In the roster the date of each officer's rank is placed opposite his name.

The names of *enlisted men* who have received medals of honor are given at the foot of the roster of officers of each regiment.

The date opposite each officer's name in the list of casualties is the date of casualty.

The letters "*a. w. m.*" opposite a name in the roster indicate that the officer has been appointed, but never mustered into the service of the United States in the grade in which he appears.—(See paragraphs 114 and 120 Mustering Regulations.)

In the list of casualties *italics* indicate that the officer whose name appears italicised was not mustered into service in the grade in which he appears.

SECOND REGIMENT.

(This regiment was organized at St. Louis, Mo., from September 16 to November 6, 1861, to serve during the war. It consisted of fifteen batteries—twelve of heavy artillery and three of light—and was known as the 1st Missouri artillery, United States Reserve Corps. Its designation was changed to the 2d Missouri artillery November 20, 1861, and in January, 1862, the number of batteries was reduced to twelve by consolidation; batteries H and I (heavy) and B (light) having been broken up. Batteries K, L, and M, (heavy,) and A and C, (light,) became batteries H, I, K, L, and M, respectively. All members who enlisted prior to November 20, 1861, were mustered out of service in August and September, 1863, and the remaining members consolidated into a battalion of five batteries, as follows: Those of batteries C and D to form battery A; battery B to retain its organization; I and H to form C; A, F, G, and K to form D; and E, L, and M to form E. Landgraeber's battery, (horse artillery,) organized at St. Louis, Mo., October 8, 1861, to serve three years, was assigned to this battalion as battery F September 30, 1863. Six more batteries were organized at St. Louis, Mo., from December 4, 1863, to February, 1864, to serve three years, and assigned as batteries G, H, I, K, L, and M. The heavy batteries were equipped as light batteries at various dates. On the expiration of the term of service of batteries A, B, C, D, E, and F, the original members (except veterans) were mustered out, and the organizations, composed of veterans and recruits, retained in service. The regiment was mustered out of service by batteries, at different dates, as follows: Battery A, August 24, 1865; D, E, H, K, and L, November 20, 1865; F, August 25, 1865; G, August 22, 1865; I, August 23, 1865; and B, C, and M, December 20, 1865.)
